

Little Pablo

During my past visit to the mission field, we prayed for little Pablo who was undergoing treatment for leukemia in San Luis. His grandmother had brought him to meetings in the village of Cheque to be prayed for. He was bald at that time from his medical treatment and in poor physical health.

In the above picture, Pastor Maria is presenting Pablo at one of our recent baptismal events. He now has a full head of hair and participates in children's play with full vitality. The boy's grandmother made the return visit to Cheque to share this healing blessing. A blessing like this is very important in our village ministry. It Glorifies God, confirms His Word, and confirms His Love for His people and the lost.

Amor en CristoJesus, Love in Christ Jesus
